## CARPETS.

WE invite a visit to our CARPET DEPARTMENT. We have no special opening day, as we are pleased to see our customers at all times.

This Fall we have INCREASED OUR STOCK OF CARPETS VERY LARGELY, and have a better selection of PATTERNS, than at any time heretofore. We purchase from the most noted manufacturers, and are able to do by buying such quantities, and consequently can give the best value to be had for the money. We show a FINE RANGE OF PATTERNS IN BRUSSELS, that have even more Toronto retail houses in BRUSSELS than in NEW YORK.

In BRUSSELS FROM THE FURNISHING HOUSE, we begin as low as 65c.

And in UNIONS we have VERY FAIR AT 45c.

## FLOOR OIL CLOTHS.

OUR OWN IMPORTATION. A large variety of patterns, cheap.

LACE CURTAINS, VELVET RUGS, MATS and other HOUSE FURNISHINGS. We don't need to tell our customers that our goods are reliable, they know it.

The invitation to attend the meeting in the hall was accepted by a large number who listened attentively to what was presented.

## The Parade of the 10th Batt.

## The church parade of the 10th Batt. yesterday was decidedly the best that regiment has made this season, both in numbers and in the appearance of the men. The parade was formed at the army and proceeded to the Holloway Street Church. The volunteers occupied the centre portion of the church, and the side rows were well filled. The service, which was well filled, was conducted by Rev. Dr. Jeffers, who opened with the singing of the hymn: "Lord, thou hast made us a people of prayer." This was followed by an impressive prayer. A portion of the 78th Psalm was next read and the choir sang an anthem.

## Dr. Jeffers chose as his text the middle chapter of the 5th verse of the 20th Psalm: "In the name of our God we will set up our banners." ## The Parade of the 10th Batt.

## The church parade of the 10th Batt. yesterday was decidedly the best that regiment has made this season, both in numbers and in the appearance of the men. The parade was formed at the army and proceeded to the Holloway Street Church. The volunteers occupied the centre portion of the church, and the side rows were well filled. The service, which was well filled, was conducted by Rev. Dr. Jeffers, who opened with the singing of the hymn: "Lord, thou hast made us a people of prayer." This was followed by an impressive prayer. A portion of the 78th Psalm was next read and the choir sang an anthem.

## Dr. Jeffers chose as his text the middle chapter of the 5th verse of the 20th Psalm: "In the name of our God we will set up our banners." In ancient times, said the Dr., nations placed themselves under the protection of their God. On monuments that had lasted for thousands of years there had been found the inscriptions of fighting kings. These inscriptions bore the acknowledgment that their God had given them victory. When they were slain, they were gathered around their altars and consecrated their banners; they also offered up sacrifices to their gods before they went out to battle. Until they attained to their religious duty and God was not with them, they could not succeed. The poorest royal king was better than none; the poorest God was better than none. Human nature could not exist without religion. When religion loses its power, nations become like Samson when his hair was cut off. All nations have had banners inscribed to their gods. Constantine the Great had the cross inscribed on his banner and ascribed his success to the favor of God. What was the foundation of the principle of liberty, what was the sap-root of liberty? Nothing but the sense of responsibility to God. When people's consciences are dead, laws are no good. Penalties for the breaking of a law have some effect, but the conscience within is the great preventive of crime. He loved to see a great nation like the German Kaiser King his God. The statement of Great Britain recognizes the fact that in religion there is a great security. When a volunteer enters the service he gives his life to the service of his country, and all who do so should go forth with the faith of God. Religion makes us strong, patriotic and God. He alluded to the restoration of Macaulay's and the New Zealanders sitting on London bridge and viewing the ruins of the city. He said that as long as England was true to her God, the nation would last to the day of judgment. As long as religion lasts, God will persevere and give his people life. The men who have been victorious are those who have set up their banners under the favor of God. The statement of Canada, Canadians were patriotic nation; numbers when their country was invaded left their places in Chicago; they showed their hearts were devoted to their home. God gave us a country that was as good as fought before we were born, and the time will come when this country will have a population of fifty or seventy millions. Our educational system had attained a high standard and we were sharing in the march of human progress. In conclusion he said, "God bless the men who are the assistants in the progress of our country."

## The above is a brief outline of the sermon which was delivered as usual by the Dr. can deliver it.

## God Save the Queen. was sung and the service closed with the benediction.

## The choir was very strong in numbers and rendered some excellent music.

## Of the playing of the Oldfella's and Military Band too much cannot be said in praise. That fine old hymn, "There is a fountain filled with blood," was one of the finest pieces of instrumentation ever heard in this city.

## The regiment returned to the army shortly after five o'clock and were then dismissed.

## Dr. Lazier is to be congratulated on the soldierly appearance of his men, who are a great credit to the volunteer corps of the country.

## ALGOMA.

By the free use of the most nefarious means, the Grits have succeeded in gaining a temporary triumph in Algoma; but, we doubt not, the election count will preserve the freedom of the franchise by doing justice to the premises. In order to meet the majority for their cause, Mr. Mowat's supporters disfranchised Conservatives by refusing to accept many perfectly good votes which were tendered; they located the polling places so that many Conservatives could not poll their votes; they did not open polls in two places appointed; and besides, they indulged in bribery and corruption of all kinds. What can be thought of a Government which not only winked at, but actually desired, such treachery? Their triumph will, however, be short, and their lease of power will not be lengthened by the momentary success of such tactics. It will be a day for Canada when practices such as those resorted to by the Grits in Algoma can go unpunished.

## EDITORIAL BRIEVES.

Instead of there being a great popular movement in the United States in favor of free trade, as the Grits party are so fond of saying, the free traders of that country are evidently in a greater quandary on the subject than the Canadian Grits. The Globe tells us, in the issue of the 29th ult., that in order to secure unanimity, the New York State Democratic Convention decided, after a hot discussion, to omit reference to the tariff from the platform.

It is now in order for the Grits to become the New York Free traders for their lack of faith in free trade.

A very important decision was given by Chief Justice Wilson on Toronto on Friday, the effect of which is stated by the Mail of Saturday.

Judgment was delivered yesterday by Chief Justice Wilson on the motion in Keaney v. the Midland Railway Company to set aside an order for the examination of the defendant's statements on the ground that he is not an officer of the company within the meaning of the Act. His Lordship held that, in consequence of his responsibility and the importance of his duties, a station master is an officer of the company, and is liable to be examined under the Act. This decision is of great interest to companies, as adding one more link to the already long chain of complications in corporation law. The decision now is that a paymaster, a site inspector, or an engine driver cannot be examined, but a chief engineer or a station master can.

Having reproduced the account given by the Globe's correspondent of the dispute between Gen. Leard and Col. Williams, M.P., we give space to the General's statement, addressed to the editor of the Globe, which is as follows:

Sir,—In your issue of the 24th inst. appears a notice of the camp at Oshawa on 20th September. Your reporter has failed to state that I was not there, but there is no serious that I must insist on it.

It is stated that "I gave the lie direct" to Col. Williams, of the 4th. You must allow me to give this a distinct denial. What was said was that I would have afforded a satisfactory explanation. This has not happened, and I hope a difference of opinion on a matter which is not introduced into this note may interfere with the friendly feelings I entertain towards this valuable militia.

R. G. A. LEARD,  
Major-General.

Commenting on the significant result of the Kent election, the St. John, N.B., News says:—"There can be no mistaking the significance of these results. They testify strongly to the continuance of public confidence in the character of the National Policy and the capacity of the Macdonald Government. They show no reaction against the existing Dominion Cabinet, but rather point to an increase of confidence both in the Government and its general policy. Nothing seems to be occurring elsewhere in the Dominion which is so different a conclusion. The prospect, therefore, now is that for a second parliamentary term the Macdonald Government will have the good fortune to maintain its power and influence with the people unimpaired. This is a very remarkable experience in the history of parliamentary government."

The Montreal Times states the full statement of the returns for Kent county as follows: Landry 1,633; McInerney 963; majority for Landry 770. In 1882 the vote was:—Girouard 1,412; McInerney 773; majority for Girouard 639. This shows that a much larger vote was polled this year than last, and that there was a correspondingly larger Liberal vote. It is a very interesting fact, even without taking into account the Liberal Conservatives who may have voted for Mr. McInerney owing to his change of platform.

It is worth noting that in the St. John's election, the Liberal vote was 1,412, while the Conservative vote was 773.

claim to his poor. Butwell, at all events, can only boast of one Jim Stephens, and the only man in Canada superior to the people, and who makes a number of Parliament despite the wishes of a majority of the people."—*Donald's Review*.

The usually well informed Fraser is not correct in saying that the Conservative member for Ontario could return a member just as easily as Jim Stephens, as Mr. Stephens is not a member of the House of Commons. He is a member of the House of Commons.

The "Donald's Review" is wrong. The returning officer in Lunenburg, Nova Scotia, "made a member of Parliament despite the wishes of the people," by electing Mr. Keeler, a Conservative, against a minority of the votes. There is, however, this difference between the cases: The office charged against the Nova Scotia official has been proved, and the candidate was elected. The charge made against Mr. Stephens has not been taken into court. If the Grit papers above quoted were sincere in their denunciations of frauds such as that which they allege in Belleville, they would have condemned the conduct of their Nova Scotia friend. As they have not done so, in spite of the exposure of the facts, it is not surprising that they should resort to such tactics as those resorted to by the Grits in Algoma, which are not only wicked, but actually desired, such treachery? Their triumph will, however, be short, and their lease of power will not be lengthened by the momentary success of such tactics. It will be a day for Canada when practices such as those resorted to by the Grits in Algoma can go unpunished.

The benefits which have accrued from the rapid construction of the Canadian Pacific Railway are also being felt in the following, from the *Calgary Herald* of September 21st:

Not many of our readers have an idea of the price of goods as they ranged in Calgary last year. Below we give a list comparing last year's prices and rates at the present time:

	Jan. 1st, 1883.	Sept. 1883.
Flour	15	15
Oats	20	20
Wheat	20	20
Sugar	25	25
Tea	50	50
Beans	100	100
Ham	200	200
Cotton per yard	200	150
Oil per yard	200	150
Hay per ton	150	150
Eggs per doz.	1.50	1.50

The policy of the Grits was to delay the construction of the road for several years, and thus to prevent the settlement of the country, probably in the interest of the Dakota ring.

## ALGOMA ELECTION.

## Mr. Plummer Defeated Through Grit Machinations.

## No Poll Opened at Long Sault.

(From the Mail Correspondent.)

WINNIPEG, Oct. 1.—Returns just in from Port Frances give Plummer twenty seven majority.

RAT PORTAGE, Oct. 1.—Arrivals from Rainy River today state that C. S. Crowe, the returning officer at Port Frances, not having received the ballot box, imported one. J. A. Huntley, the Conservative agent, took ballot with him for an emergency, which Crowe used. His vote stood 1—Plummer, 45; 12—12.

Wm. Lindsay, returning officer at Long Sault, refused to open the poll, though W. H. DeRose, a seigneur, had the ballot with him. Lindsay has not been sworn in. The Plummer electors were present at nine o'clock and tendered their votes, but in vain.

The fall returns have been in, the Mail gives such returns as come to hand, showing a majority of 100 for Plummer.

## CITY COUNCIL.

At eight last night, Ald. Pettie rose at the usual hour, put on his coat and was about to leave, when the Mayor advised him to wait. He then tilted his chair and was soon wrapped in deep thought.

Ald. Starling saluted the Mayor, who was at the head of the Council, and said he was glad to see him. The other members present took their seats and the Clerk went to his post.

Ald. Starling introduced Ald. Pope to the Mayor as the representative of a Ward that were not represented by the Council.

The Secretary of the Gas Company informed the Council that the Company was about to issue \$20,000 additional stock and the city was entitled to subscribe for \$2,500 of the same if it desired. The stock of the city in that Company is \$25,000.

Robert Dick completed his assessment, as did G. S. Johnston & Co.

The Solicitor and Treasurer asked that one or more members of the Council be associated with them in order to settle the question of the amount due to the City Registrar.

The Bell Telephone Co., asked permission to plant poles for the telephone service on Front Street.

T. S. Carman said that if the city renewed the lease he would plant the yard and put a turnstile in front of No. 1, engine shed.

The W. O. A. reported the expenditure of \$39.25 and that they had a balance on hand of \$42.25.

Several accounts were read and referred to the Executive Committee and a number of the communications were read on the table.

REPORTS.

In reply to Ald. Dickson, Ald. Pettie said the cost of a new furnace for the market had not been included in the estimates of the Market Committee.

Ald. Starling thought that the defective furnace should be properly examined before the purchase of another was ordered.

The reports previously announced were passed. In addition the Executive Committee asked that the Mill Island be offered for sale for \$5,000.

Council went into Committee to consider the reports.—Ald. Blair in the chair.

Ald. Pettie said that where anything was needed, he would have the want stated, and would also keep within his appropriation.

With regard to the sale of Mill Island for \$5,000, Ald. Tickle thought the matter should be referred to the Committee.

Ald. Dickson said the land was putting the city into constant expense, as the debris from it was dropping continually into the harbor. It would cost \$100 to get the island in shape and if it was not sold, it would cost \$2,000 or \$3,000 a year to remove the debris that came from it.

Ald. Starling approved of the proposal to sell the island, as the sale might result in the establishment of an industry on it.

Ald. Smith said the island was a benefit to Murray Ward, as cords of wood had been taken from it by residents of that section of the city.

Ald. Tickle said the island was the key to the harbor and the price asked (\$5,000) he considered too low. He could not approve of the recommendation in its present shape.

Ald. Macoun said the island in its present shape was injurious to the city. He wanted the part of the money used for the island to be expended in buying a park. He moved an amendment embodying the above.

Ald. Tickle said that our taxes should increase, for we must make our city attractive. He favored the park question but disapproved of selling the island for the sum named.

Ald. Dickson said the matter was brought up in this way in order that it could again be presented in Council.

Ald. Dickson thought it inexpedient to appropriate a sum of money that we may or may not receive for a particular purpose. He moved an amendment accordingly.

Ald. Pettie said that the island was a key and also a look to the harbor on account of the debris that went into it into the harbor. He favored a park and also asked the withdrawal of the amendment, which was done.

In reference to the request for the purchase of a furnace, Ald. Dickson complained that the item of expenditure could not be considered, because we had not the money to pay for it. He would like the present furnace patched up so that it would do for another year.

Ald. Hanley said the furnace was unfit for use and the question would arise whether the city building should be heated during the winter. A new furnace was required.

Ald. Starling was confident there was no necessity for a new furnace. The present one should be thoroughly examined before another was purchased.

Ald. Dickson suggested that tenders for a new furnace be asked for, and that the cost of repairing the present one be ascertained. He moved an amendment accordingly.

Ald. Pettie favored the clause in the report as the caretaker had represented that the furnace was unfit for use, as did also a gentleman who was competent to judge of its defects.

Ald. Dickson said the result of a discussion of this subject would be that a new furnace would be ordered. He suggested that the appropriation money would be provided for either out of this or next year's.

The amendment was declared carried, the Chairman declaring the vote 9 to 4.

Ald. Macoun could not see how the amendment carried, as there were 18 members present.

The Council, on motion of Ald. Pettie, declined to purchase any more gas telephones.

A representative of the Bell Telephone Co., by request, addressed the Council. He asserted that nearly all his subscribers were on Front Street, and the only way they could run their wires satisfactorily for their patronage, was that they should place poles at that street. People objected to the use of their rods, as they were injured by the Company's men tramping over them. It was impossible to conduct their wires satisfactorily unless they had the use of the main street. They had 30 rods in use, and he thought they could trade the business if the request asked for a grant.

Ald. Pettie was in favor of granting the grant.

Ald. Taylor moved that the Company be permitted to erect poles on Front Street, provided the poles are painted.

Ald. Starling said the wires could be run over the poles of the city as readily as by the use of poles. If the Council granted the Company permission to put up poles, he would not object.

Ald. Pettie agreed with the motion, but wanted some supervision over the placing of the poles.

Ald. Hanley wanted the poles smoothed, and put up under the direction of the Street Surveyor.

Ald. Dickson said the matter came down to the saving of a few dollars to the Bell Telephone Company. If the privilege asked was granted, the wires would run across as well as the street, and their appearance would be unsightly. We have a line street now, and we would keep it so. Front Street could be served equally as well by a line of poles on Front Street, as by one on Front St. He asked that the request be sent to the Street Committee.

Ald. Tickle considered that, after having the signs, awnings and telegraph poles removed from Front Street, that thoroughfare would be again disfigured if the request was acceded to.

The representative of the Telephone Company said it would be impossible to use Front Street, as the mass of wires on that street would interfere with the telephone lines. If the Council ordered the Company to place poles on Front Street it would practically exclude them from the city.

Ald. Tickle objected to the proposal to put unsightly poles opposite the business places on Front Street.

The W. O. A. reported the expenditure of \$39.25 and that they had a balance on hand of \$42.25.

Several accounts were read and referred to the Executive Committee and a number of the communications were read on the table.

Ald. Dickson said the matter was brought up in this way in order that it could again be presented in Council.

Ald. Dickson thought it inexpedient to appropriate a sum of money that we may or may not receive for a particular purpose. He moved an amendment accordingly.

Ald. Pettie said that the island was a key and also a look to the harbor on account of the debris that went into it into the harbor. He favored a park and also asked the withdrawal of the amendment, which was done.

In reference to the request for the purchase of a furnace, Ald. Dickson complained that the item of expenditure could not be considered, because we had not the money to pay for it. He would like the present furnace patched up so that it would do for another year.

Ald. Hanley said the furnace was unfit for use and the question would arise whether the city building should be heated during the winter. A new furnace was required.

Ald. Starling was confident there was no necessity for a new furnace. The present one should be thoroughly examined before another was purchased.

Ald. Dickson suggested that tenders for a new furnace be asked for, and that the cost of repairing the present one be ascertained. He moved an amendment accordingly.

Ald. Pettie favored the clause in the report as the caretaker had represented that the furnace was unfit for use, as did also a gentleman who was competent to judge of its defects.

Ald. Dickson said the result of a discussion of this subject would be that a new furnace would be ordered. He suggested that the appropriation money would be provided for either out of this or next year's.

The amendment was declared carried, the Chairman declaring the vote 9 to 4.

Ald. Macoun could not see how the amendment carried, as there were 18 members present.

The Council, on motion of Ald. Pettie, declined to purchase any more gas telephones.

A representative of the Bell Telephone Co., by request, addressed the Council. He asserted that nearly all his subscribers were on Front Street, and the only way they could run their wires satisfactorily for their patronage, was that they should place poles at that street. People objected to the use of their rods, as they were injured by the Company's men tramping over them. It was impossible to conduct their wires satisfactorily unless they had the use of the main street. They had 30 rods in use, and he thought they could trade the business if the request asked for a grant.

Ald. Pettie was in favor of granting the grant.

Ald. Taylor moved that the Company be permitted to erect poles on Front Street, provided the poles are painted.

Ald. Starling said the wires could be run over the poles of the city as readily as by the use of poles. If the Council granted the Company permission to put up poles, he would not object.

Ald. Pettie agreed with the motion, but wanted some supervision over the placing of the poles.

Ald. Hanley wanted the poles smoothed, and put up under the direction of the Street Surveyor.

Ald. Dickson said the matter came down to the saving of a few dollars to the Bell Telephone Company. If the privilege asked was granted, the wires would run across as well as the street, and their appearance would be unsightly. We have a line street now, and we would keep it so. Front Street could be served equally as well by a line of poles on Front Street, as by one on Front St. He asked that the request be sent to the Street Committee.

Ald. Tickle considered that, after having the signs, awnings and telegraph poles removed from Front Street, that thoroughfare would be again disfigured if the request was acceded to.

The representative of the Telephone Company said it would be impossible to use Front Street, as the mass of wires on that street would interfere with the telephone lines. If the Council ordered the Company to place poles on Front Street it would practically exclude them from the city.

Ald. Tickle objected to the proposal to put unsightly poles opposite the business places on Front Street.

The W. O. A. reported the expenditure of \$39.25 and that they had a balance on hand of \$42.25.

Several accounts were read and referred to the Executive Committee and a number of the communications were read on the table.

In reply to Ald. Dickson, Ald. Pettie said the cost of a new furnace for the market had not been included in the estimates of the Market Committee.

Ald. Starling thought that the defective furnace should be properly examined before the purchase of another was ordered.

The reports previously announced were passed. In addition the Executive Committee asked that the Mill Island be offered for sale for \$5,000.

Winter underwear is being put on. Last gathering parties are in order. The ice men's business is falling off. Last night's frost was the heaviest of the season.

Our tramp and three drunks occupied beds in the public hall.

We regret to learn that Mr. Costello's condition is still less favorable to day.

The repairs to the upper bridge are being made as rapidly as circumstances permit.

Business must be good at the Albion Hotel, as the proprietor is building an addition.

The Street Surverge notified the public that the upper bridge is closed for repairs. Those who cross the bridge do so at their own risk.

An excursion from Peterborough, Hastings and other places along the Grand Junction, arrived here to day. The party numbered about 200.

Program for the union show of the West Hastings Agricultural and Belleville Horticultural Societies, which takes place tomorrow and Saturday, are highly favorable.

The chancery case involving the rights of the "New Light" and the "Old Light" of the Society of Friends still occupies the court. It will probably last until tomorrow evening.

Go to Hamby's and try his Ginger Beer. Have it made your, and enjoy the most wholesome, delicious, and refreshing beverage you can possibly get in the city.

A Memorial meeting will be held at the John Street Church tomorrow evening, when the Rev. J. Morton, missionary from Trinidad, West Indies, will deliver an address. Proceeds in aid of church building in Trinidad.

JOHN BURNHAM WILLIAMS, of Deseronto, was brought before Geo. E. Ball and C. J. Bogart, Justices of the Peace, yesterday afternoon for stealing money from William Wilson and Wm. Murray. He pleaded guilty and was sent up for trial.

Is the Police Court today, Andrew Underwood, charged with stealing a watch, was allowed to go on his own recognizance. Alexander Telford and Henry Spooner, drunk, and John Hallan, vagrant, were discharged. Ald. Dickson presided.

This month is largely devoted to religious fasts by the Hebrews. The new year was observed from Monday night last Tuesday night. The tenth of October is a fast day known as the Atonement. The week commencing October 15th is celebrated as the Feast of Succoth. The first and last days are holy, the others half holy days.

Just what you've been looking for, here at Hamby's. A little just to hand at Hamby's.

The Winnipeg Times of Sept. 28th says: After visiting after Mr. George C. Wilde was married to Miss L. Smith, to Holy Trinity Church. Mr. A. J. Chubb, of the city, acted as best man, and Miss Elsie Chubb as bridesmaid. The ceremony was performed by Rev. Mr. Hill, assisted by Rev. Mr. Stinson, of the city. Mr. Wilde, who is a resident of Belleville, has been some time a resident of Belleville. He is a genial companion, and has been one of the fortunate ones in the North-West. We congratulate Mr. and Mrs. Wilde.

After now drawing a very fine new sport, A. P. H. Hamby.

The meeting in connection with the Church of England Temperance Society, which was held in Christ Church last night, was largely attended. After address by Mr. J. H. Hicks, G. O., and the Rev. Mr. Sibbald, a strong branch of the association was formed, about one hundred and fifty persons signing the constitution. Rev. Mr. Sibbald was appointed President; Miss Susan Treason, and Rev. Mr. G. R. Gilmour, Secretary. Other officers were also appointed. The Society commences operations with every prospect of success.

WEATHER PROBABILITIES—Toronto, Oct. 4.—Lakes, moderate winds, fine weather, stationary or slightly higher temperature.

For the Intelligencer.

There are complaints of milk vendors selling unwholesome milk. It may be one of the prevailing sickness, and especially when cattle are still fed. In Toronto they are more particular. Would it not be well to have all milk vendors, and especially that the honest milkmen receive their just due, and the dishonest ones, if any, exposed?

New Barber Shop.

Messrs. Howard and Thomas have opened a shop nearly opposite the Dominion House and have fitted it up in a very attractive and tasty manner. They will run three chairs, and as they understand their business thoroughly, all who want a first class shave or hair cut, should patronize them, and they will receive satisfaction. The new firm starts under a very favorable auspices, and should receive a large patronage.

THE ARMY.

Captain Abble arrived here yesterday, and last evening attended the other members of the army in their services, at the barracks. The attendance was large.

Marine.

The schooner Queen of the Lakes is in light and will load iron ore.

The schooner John and First Queen have passed up to Kingston light, and W. Grant down with lumber for Oswego.

Just what you've been looking for, some good old cheese. A little just to hand at Hamby's.

COMPLAINT is made that a flock of geese roosted last night on the platform of the public well at the corner of Bluff and Catherine Streets. The attention of the Inspector is called to this fact.

Five drums of timber, containing 100,000 feet, were forwarded from here on Saturday last, to Quebec, in tow of the *Fort*.

Four drams, containing 125,000 ft. will be sent from here on Saturday, to the same destination.

An exchange says: "There is nothing so tender as the lives of old people and to injure their health as the practice of sitting up late, especially winter evenings, and more especially when there is a grown up daughter in the family."

JUST TO HARM: Gurd's Montreal, Ontario, Gurd's plain Soda Water, Gurd's Salt Water, Gurd's Potash Netting.—P. H. HANLEY.

Mr. Chamberlain's condition has not improved since our last report and no hopes are held out for his recovery. Two sisters of the Hotel Dieu, Kingston, have been unremittent in their attention to him. His medical adviser has given up.

Two contracts for the remodeling, some painting and stage carpentering, of the new Opera House, have been awarded to Messrs. Richardson and Alford, conditionally. Their work will begin at the end of this month, as then the plastering will be completed.

## Chancery Settings.

DORLAND & JONES.—This action, which occupied the attention of the Court for nearly five days, is well known in this town as the great Chancery suit, and was brought as an action of trespass, but virtually to test the right to the Friends' meeting house property at Bloomfield. The property was conveyed in 1901 to Messrs. Dorland & Jones of the West Lake monthly meeting of friends. The Society was and continued harmonious until after the year 1910, when the formation of the Friends of the Canada yearly meeting. Prior to that the Friends in Canada belonged to and formed a part of the New England yearly meeting. At the formation of the Friends of the Canada yearly meeting, the Discipline then in force in 1897, the Discipline then in force in the New England yearly meeting, known as the Discipline of 1890, was adopted as the Discipline of the Canada yearly meeting. The Discipline was acknowledged at that time by all the Friends in Canada as a true exposition, so far as any Discipline is supposed to contain it, of the doctrine and practice of Friends. Since the formation of the Friends of the Canada yearly meeting, it is contended by the defendants' errors in Discipline and procedure began to creep into the Society, and a departure from the Discipline commenced which has gradually led to a split in the Society, the plaintiffs and their friends being styled "the New Lights," or "Fast Friends," and the defendants and their party being styled the Old Friends. The division which now exists in the Society was precipitated by the adoption, in 1880, by the Canada Yearly Meeting, of a new discipline, which is claimed by the defendants to be a departure from Old Friends' doctrine—but which it is equally fearfully asserted not to be by the plaintiffs. After the adoption of the new discipline in 1880, and when it was sent down to the subordinate meetings to be adopted or lived under, the old Friends at Bloomfield refused to be governed by it, and adhered to the discipline of 1890. An arrangement was made by which separate meetings were held of the adherents of the two disciplines. This continued for about two years, when the new party called the meeting house against the old Friends and refused to allow them to hold their meetings there any longer. A number of the Old Friends desired the house locked against them, broke it open, when the plaintiffs brought this action.

A large number of witnesses were called on both sides from all parts of Canada, and one was brought by the plaintiffs from the State, by the defendants to prove that the doctrine and practice of "the New Lights" were contrary to Old Friends' teaching, and by the plaintiffs to prove that they were not.

A great part of the trial was devoted to the examination of the depositions of the trial of the day, and some of it over 200 years old, was brought into Court, and examined and commented on by Counsel.

The trial, although long, was not devoid of great interest throughout, as every witness called, whether a Friend or a Friend, exhibited a remarkable knowledge of the scriptures and of the doctrine and practice of the society, from which the other Christian denominations might learn a wholesome lesson. At the close of the argument, which lasted from 12 until 6 on Saturday, the learned Judge reserved judgment.

From the intricate knowledge displayed by the counsel of Friends' doctrine and practice, one would almost think they had been born with the faith, and show not only the high intelligence and ability of the bar of the present day, but also the case in which they master the most difficult subjects. Pending the delivery of judgment the Judge ordered that the Old Friends occupy the hall of the meeting house, at the times at which their meetings were held before their exclusion by the plaintiffs. Mr. Bethune, Q. C., and Mr. Clute counsel for plaintiffs; Messrs. Clute & Williams solicitors. Mr. Macdonald, Q. C., Mr. A. J. Macdonald, Mr. Allen, counsel for defendant; Messrs. Allison & Allison solicitors.

## Daily Intelligence.

WELLVILLE, TUESDAY, OCT. 16

## A SPECIAL DENIAL.

We clip the following from the *Mail* of the 15th inst.:

The *Globe* again has for several weeks been devoting some attention to the ravings of two or three ex-acted Orangemen, who, in a column of its columns, in its speech, have been recently delivered by one of its gentry. It is stated that prior to the formation of the Government in the fall of 1878, Mr. Bowdler requested to be brought, as an Orangeman, before Sir John Macdonald by a deposition from the Grand Lodge, and thereby have his property strangled for a week in the *Chambers*. The Minister of Customs knows this statement to be untrue, and would not doubt give it a special notice, but we suppose he deems the few ex-acted of the *Globe*, as well as their utterances, to be of little consequence. The *Globe* has been too much given to be influenced by anything but the petulant wish of one of its contributors to the effect of the order.

We have read the speech referred to by the *Mail*, which was made by a man named Reynolds, and published in a recent issue of the *Globe*, and have passed it over as unworthy of notice, but for the *Mail's* reference to it. No one who knows the Minister of Customs would for a moment believe that he would act as he is represented by Reynolds to have done, but as the statement will do much to be widely circulated by the *Globe*, we took the opportunity of calling the attention of the Minister of Customs to the matter on his visit to town yesterday. He authorized us to state that the assertion is utterly without foundation, and as the *Globe* gave currency to the statement, he thought it proper to do so. It is impossible that the true friends of Mr. Reynolds' anger against Mr. Bowdler, which has found vent in a malignant falsehood, may long be exposed.

## EDITORIAL BRIEFS.

Say the *Globe*, in its issue of the 15th: A peculiar feature of the *Globe* election case is the cheapness of the purchased votes. Some were bought at 25 cents, others for 10 cents, and some for 5 cents.

Which of the purchased votes our contemporary mean? Those bought by the Conservatives or by the *Globe* agents? Certainly the prices paid in London by Mr. Allan's agents were paid to the Ministers of Customs. The prices paid by Walker in London, Cook in Simcoe, Cameron in Huron, or Jordan in Chatham—all good Grits and true and notorious upholders of "the standard of public morality," which they alleged their opponents had "done so much to debase."

By the way, the *Globe* has not yet declared itself on the question of Customs Union. Does the editor know what the position of his paper is?

## Viceroyal Movements.

OTTAWA, October 15.—His Excellency the Governor General, the Princess Louise and suite left at noon by the Canada Atlantic Railway for Montreal. There was a large number of our citizens at the station to bid their Excellencies "good-bye." A guard of honor was given by the Governor-General's Foot Guards. The bands of the Governor-General's Foot Guards and 43rd Battalion were present. The Dragon Guards furnished an escort from Rideau Hall to the station, and as the Viceroyal cortege started from the hall the Ottawa Field Battery fired a salute from Nepean Point Battery. At the street corners along the route large crowds gathered and cheers were given as the Viceroyal party passed. His Excellency and the Princess acknowledged the compliments of the crowds by bowing. Flags were flying from the Government and all principal public buildings and there was considerable bustle in the city all morning.

His Excellency and the Princess were very warmly received at Montreal, where they arrived at 3.30 p. m.

The *Greatest Healing Compound* is a preparation of cod-liver oil, vanilla and geriatric called McCreight's Patent Compound. It will cure any sore, cut, burn, bruise when all other preparations fail. Call at A. L. Green's, Wholesale and Retail Drug Store, and get a package. Twenty-five cents a bottle.

Do not wear faded clothes when a 100 package of the Triangle Dye will use them look bright as new. All the popular colors (50).

A New Principle. The principle upon which POTTEN'S PATENT CONE EXTRACTOR is based is that it does not draw the oil from the fish, thereby producing a pure oil, but it draws the oil from the part and at once effects a radical cure, without any use of the knife or the saw.

By the completion of the work, the fish is ready to be removed from the POTTEN'S PATENT CONE EXTRACTOR.

Why suffer from Nervous prostration when you can buy a guaranteed cure, as Clarke's Kidney & Bladder Pills.

We have been requested to publish the following letter which was addressed to the editor of the *Intelligencer*:

BEVELLILLE, 13th Oct., 1883.

Mr. Editor, I am writing to you with pleasure the letter of Ald. Frost and Diamond, and your editorial of the 13th inst. I have calculated to induce the newspapers attention to this important subject.

The whole argument of Ald. Frost and yourself, as I understand it, is in favor of an Assessment Committee, and you add as a third in support of your affirmative part.

Ald. Frost says: "I agree that a change is necessary, with the portion of the (a) letter favoring the appointment of an Assessment Committee, but we do not make it a condition in our view." You say:

"The whole argument of Ald. Frost and yourself, as I understand it, is in favor of an Assessment Committee, and you add as a third in support of your affirmative part."

I have been advocating and moving for this in the Council for four years.

It is not somewhat inconsistent for one after advocating a permanent Assessment Committee, and then to say "it is misleading."

## THE GOVERNMENT BUILDING.

The erection of this structure, which is 64 ft 2 in. tall, with basement and main floor, was commenced in the month of November, 1881, the work of building the stone which was used in putting the building has been commenced in that month. It is not expected that the structure will be completed and ready for occupation by the close of the present month.

In the basement are two furnace made by McGuire & Birr, of Toronto, which will supply the necessary heat for the building, the steam being conducted through pipes. The pipes are first covered with asbestos, and then with felt, and lastly with plaster. There is also ample room here for the storage of coal, and already the winter supply has been placed there. In the southern part is an ash pit, which is large enough to contain all the refuse of the building. The ground floor is provided with the necessary pump, which are of the most approved pattern.

There are two entrances to the post office, which branch of the public service will occupy almost the entire lower floor of the building; one in the centre of the front on Bridge street and the other near the corner of Bridge and Pinnacle Streets. The first floor is about six feet higher than the pavement and the entrance, which are easy, show excellent architectural taste. The steeper (right section), which form them were taken from Ross's quarry, near Foxboro, and are considered to be very durable. They are semi-elliptical in form and exhibit ample evidence of the skill of the stone carver. The space between the first floor and the ceiling is 16 ft. The floor is of the most substantial character, and the ceiling well plastered. The audience room is quite spacious, being 19 ft 6 in. high. At the rear of the building is the department for the sale of stamps and postal cards. It is provided with a neat counter, which is surrounded by a railing. The screen, which contains 1,000 lock boxes and drawers, is now being put in order, and such work is also being done. The general delivery is furnished with three openers, where the wants of those who do not own boxes or drawers will receive attention. The front and interior are of black and white marble, which is finished. South of the stamp office is that of the Post Master, and the money order office is located on the opposite side of the building. The glass is enamelled figured and presents a chaste appearance. The general work room is provided with all necessary appliances for stamping, distributing, sorting, &c. A circular set of boxes occupies a conspicuous space in the rear of this apartment and contains such accessories as are necessary for the work. Near by is an iron wall 4 ft 9 in. high, properly fitted up. The room is also provided with clothes and stationery closets and washstand. The office of the Inspector of Weights and Measures is also located on this floor.

The second floor, which is reached by a winding flight of stairs, and the entrance to which is gained from Pinnacle street, contains six rooms and a spacious hall, laboratory and vault. The vault is intended for the use of the Island Revenue Department, and is three feet thick. The office of the Collectors are furnished with Brussels carpet and double desks and other appropriate furniture. The counters, cupboards, closets and desks are of cherry and are neatly finished.

The third floor will be used as a repository for the extra paper consumed in the office below, and the apartment of the caretaker will also be on this floor. Here there is also a room for the storage of iron with a capacity of 800 pounds. The building will be lighted by gas, and the chandeliers, which are now being placed in position, will add to the attractiveness of the interior. The structure is neat and elegant, and the Government is entitled to great credit for erecting such a building in our city.

Meas. Northcott & Alford were the contractors. Mr. John Fort fitted up the Post Office, and Mr. Alfred the Revenue and Customs apartments. The total cost of the ground and building will be very nearly \$50,000.

## THE CIVIL RIGHTS QUESTION.

WASHINGTON, Oct. 17.—Minister Langston, who is about to return to Haiti, gave a lecture to his colored friends last night. A letter signed by the guests was presented, asking him to resign and give the colored race the benefit of his services during the trying times that may fall on the west coast concerning civil rights. Langston promised an early answer, but the decision rendered to him by the colored people was not to resign.

## LYNCHERS FETTERED.

POWERS, Ind., Oct. 17.—Six to seven hundred men gathered in front of the jail at this place, demanding that Nelling, the murderer of Ada Atkinson, be brought out. They were wild with excitement, for fear that Nelling would escape the gallows on the plea of insanity. The Sheriff and his assistants stood firm, refusing to deliver up the prisoner. A mob was made by the lynchers, but a strong guard of the lynchers were thrown down and trampled. The Sheriff and his assistants pleaded with the crowd, and the mob withdrew, but the decision rendered to him by the colored people was not to resign.

This most wonderful narrative written on the  
 present day, are those that come from  
 Germany, or at least originate there. The  
 most recent preparation placed upon the mar-  
 ket in this country, is the GIBRAT GERMANY  
 INVIGORATOR which has never been  
 known to fail in curing a single case of in-  
 tensity, apoplexy, weakness and all dis-  
 eases resulting from self-abuse, as nervous de-  
 bility, ineptitude, mental strain, languor,  
 lassitude, depression of spirits and functional  
 derangements of the nervous system. For

ELLENVILLE, MONDAY, OCT. 29.

M. R. W. F. ROSS.

For loan like innumerable command us to

the chief of our own in the act of

When Sir John was unseated for acts of

he was everything that was bad, but the

for the same case, is upon the same au-

thority, held to be, as pure as the driven

snow. For the unfortunate agent no ink is

black enough to blacken his character in

hope that against such a black face some

gleam of whiteness may be made manifest

in the unseated member.

With utmost horror this mortal raises his

eyes in disgust at the depravity of a man

who would attempt to bribe his fellow

man; yet the public does not forget that

from the same party emanated that

celebrated letter "Come along John and

help us to put down bribery and cor-

ruption, we're kind of moral." The same

system of bribery is probably being arranged

in the same office while making such loud

protestations of purity. Surely it is a good

thing to fill the singular inquirer with

not letting the right hand know what the

left hand is doing—except that in this in-

stance the hand that protests so many vir-

tues is the same hand that received pay

from the Mackenzie Government for print-

ing when protesting to act impartially as

Speaker of the House.

The system of bribery "has never done

any good in the past," says the Globe. This

is a noble confession born of a long experi-

ence in that line by the chief of our own

"When the devil was sick the devil was

well." When the devil got better the devil was

well. When the Globe disapproves of Mr. Fer-

rie, elected by bribing corruptors, it has

passed, and the Midland Railway Company

for unobtainably using its mighty influence

in aid of the Government which robbed the

people of their rights in its behalf, we will

have some hope of its being able to do

honest Tory principles. We will then have

some idea that its professions will not be

usual be belied by its practices.

Literary Notes.

Dr. Nichols for November.

Is the first number of a new volume, and is

full of promises of good things for the com-

ing year. Louis M. Alcott has the first

half of a bright story called "Sophia's

Secret." J. T. Trowbridge contributes a

thrilling biographical sketch of Captain

Mayne Reid, whose social story "In the

Land of Fire" begins in the Christmas issue,

and Frank R. Stockton furnishes one of his

inimitable fairy tales, entitled "The Bee-

man and his Original Form." There is

also, in time for production during the

holidays, a cleverly written and easily

produced Christmas play, called "Among

the Pines." Sophia Strett tells a very funny

story about "The Gentleman from China,"

W. O. Stoddard, author of "The Knave,"

"Among the Lakes," and "Sallie Bore,"

begins another six months serial, "Winter

Fun." Natural history receives due recog-

nition in accounts of some "Barnyard

Birds" and the polar bear, written by

Nugent and Board. A varied assem-

blage of verses, jingles, and short stories,

with pictures by Birch, Smedley, Bolles,

Shaw, Edwards, Ross, Mueller, D. O. Peters,

and others, completes the number.

THE NOVEMBER CATALOGUE.

In illustrations, important articles, and

American fiction, the November Catalogue

attempts to raise the old standard of excel-

Larson, John Vance Cheney, Richard  
Watson Gilder, Juliet C. Marsh, H. H.  
Helen Gray Cook, Robert Underwood  
Johnson, George A. Black, C. C. Smith,  
"Rice-Rice," by James A. Mason, B. L. S.  
Chandler, Frank Sherman, and  
others. In "Topics of the Time," "Open  
Constitutions," "The Old Path," "Dying"  
"The Future of the Nation," "The  
Professor Henry A. Biers writes in "Open  
Letters" of "Matthew Arnold in America,"  
and F. Federick of the outlook for "Opera  
in New York."

THE MINNEAPOLIS, COCHRANE AND DOBRYN.

MINNEAPOLIS.

A light, cheerful, monthly, just

what one would expect to emanate from the

bevy down and crystal streets of Minne-

sota. The October number contains several

interesting papers, among which is a char-

acteristic notice of our old friend, the Rev.

Joseph Will, illustrated, however by a

very tame portrait of the distinguished

pulpit and platform orator. The articles on

"Health and Hygiene," and "The  
Household" will repay an attentive perusal.

influenza, always subject to great fluctua-

tions, which has markedly increased. Neu-

ralgia and rheumatism, however, are not

markedly increased. Amongst fevers, intermit-

tent, evidently through the warm weather of the

previous week, has made an advance,

increasing from 4.7 to 7 per cent. of the

total. Typhoid fever (typhoid) still re-

tains its previous high position, being 3.8

per cent. of the total reported diseases.

Amongst symptoms of a contagious nature,

whooping cough still remains epidemically

increased, in several localities, appearing

amongst the six most prevalent diseases in

three districts. Its prevalence has notic-

ably increased attached to the southwestern

districts of the Province. Diphtheria, how-

ever, has increased in prevalence, was com-

menced upon in the last report, has some-

what decreased in degree of prevalence. The

remarks of last week have called up several

special reports from correspondents. Thus

one from District X, some ten miles distant

from the village where the disease was re-

ported to have broken out suddenly, writes

as follows: "A mother with two children

went to the village (the one referred to last

week), not knowing the disease was pre-

valent there. She was there nine days af-

ter being exposed the mother and one of

her two children. Two others are now hav-

ing it. All are doing pretty well. It has not

spread to other families—strict isolation is

observed. The public will do well to

mark the difference in results when use-

ful precautions are used. Another cor-

respondent from District IV, writes:

"The diphtheria reported by me appears to

be sporadic, but extremely violent. In one

family the father and mother and another

two died. I think it will not spread. The

cases were seven in all, and there is

no communication."

MURDER AND WIFE POORLY MURDERED AND

NOTICE.

Windsor, Ont., Oct. 28.—On Tuesday af-

ternoon Geo. W. Williams, a farmer, drove

into Windsor and sold a lot of clover seed

for quite a large sum. After returning home

nothing was seen of him or his family by

his neighbors for two days. Last evening a

search was instituted. In the barn the body

DEPARTURE OF THE MARQUESS OF LORNE AND

FRANCIS LOUISE.

QUEBEC, Oct. 27.—The departure of Lord

Lorne and the Princess Louise this morning

for England by the S. S. Severn, was the

most sympathetic perhaps, of any that has

ever been witnessed in the ancient capital.

The weather was very unfavorable, a

drizzling rain making the streets almost

impassable from mud, notwithstanding

thousands of spectators thronging every

point of vantage to catch a parting

glance of the royal party. The Princess was a

very plain travelling costume of soft brown cloth,

plush hat to match, with short brown veil,

and carried a small muff in her hand. The

escort was furnished by the Queen's Own

Canadian Regiment of Cavalry, 200 strong

under command of Lt-Col. Forsyth and Col.

F. Wood Gray, and paraded at 8.45 a.m.

riding to the Citadel at 9.45. All along the

line of route, which was down Citadel Hill,

Louis street, Place d'Armes, Mountain Hill,

Notre Dame, Sous-le-Roi and Champlain

streets, crowds of people had assembled

and the utmost enthusiasm prevailed.

Difficulties arose and the approach to

the wharf was so crowded that the party

was obliged to wait for some time before

being able to proceed. The departure from

the wharf was made upon the progress of the

Royal party was made known to those in

waiting on Allan's wharf by means of heli-

ograph signals from the King's bastion. On

arriving at the wharf the Marquis and

Princess were received by a brilliant mili-

tary staff, composed of the following of-

ficers: Lt-Col. DuChesneau, Lt-Col. Ouellet,

Lt-Col. Forrest, Lt-Col. Roy, Lt-Col. G.
